THE **BACK SEAT** IS NOW THE **BEST SEAT**.™

NOTES: As long as the system monitors are connected to a Wi-Fi hotspot, the monitors will be able to receive software updates when they become available. It is recommended that you update the system monitors monthly to ensure your system maintains peak performance. Being a computer-based device, the system will require periodic updates which are managed through "Over-the-Air" software updates. If a software update is available, an "Update Available" message will appear on the home screen of the system monitors.
